Ala Moana Hotel - Honolulu, Hawaii

Saturday, July 7

Positive Prevention HIV/STD Workshop

Positive Prevention: HIV/STD Prevention Education for America's Youth is a research-validated six lesson curriculum developed by the Orange County (California) Chapter of the American Red Cross and approved by the American National Red Cross for nationwide distribution.

Positive Prevention is a comprehensive curriculum designed to provide high school, middle school and special needs adolescents with the vital information and support they need to choose behaviors that reduce their risk of become infected with HIV and other STDs.

This full-day training for middle school and high school teachers will include lunch provided by the Hawaii Department of Education. To participate, you must order the Positive Prevention curriculum materials.

For curriculum information and workshop registration information, please go to www.positiveprevention.com
