
ASHA To Offer Online Consultant Directory

Looking for some assistance with Survey Development? Need a facilitator for an in-service on Bullying.

ASHA will soon be launching a Professional Services Directory to bring together buyers and sellers of school health services. The directory will be a place for school health practitioners and researchers to list and locate various consulting services.

The directory is open to ASHA members and non-members, and will be searchable by keyword.

Categories of Areas of Expertise include: Advocacy • Assessment • Curriculum Development • Grant Writing • Research Methods • Staff Wellness • Technology • and more. Additional categories can be added depending on interest.

For additional information, contact ASHA Executive Director Susan Wooley - swooley@ashaweb.org.
