### CHLAMYDIA

**Type of Infection**
- a. Bacterial
- b. Parasitic
- c. Viral

**Symptoms**
- Circle one:
  - a. Burning with urination
  - b. May not have symptoms
  - c. Unusual discharge from penis/vagina
  - d. White spots in mouth

**How It’s Spread**
- Circle two:
  - a. Direct contact with sore
  - b. Mother to baby during childbirth
  - c. Vaginal/anal/oral sex

**Treatment**
- Circle one:
  - a. Antibiotics
  - b. No known cure
  - c. Surgery

**Possible Consequences (if left untreated)**
- Circle three:
  - a. Increases risk for HIV infection
  - b. Infertility and ectopic pregnancies in females
  - c. Itching and discomfort
  - d. May cause PID in females

---

### GONORRHEA

**Type of Infection**
- a. Bacterial
- b. Parasitic
- c. Viral

**Symptoms**
- Circle one:
  - a. Burning with urination
  - b. May not have symptoms
  - c. Unusual discharge from penis/vagina

**How It’s Spread**
- Circle two:
  - a. Mother to baby during childbirth
  - b. Sharing needles
  - c. Vaginal/anal/oral sex

**Treatment**
- Circle one:
  - a. Antibiotics
  - b. No known cure
  - c. Special lotions or shampoos

**Possible Consequences (if left untreated)**
- Circle three:
  - a. Increases risk for HIV infection
  - b. Liver damage and death
  - c. May cause PID in males/females
  - d. May cause infertility in males/females

---

### SIPHILIS

**Type of Infection**
- a. Bacterial
- b. Parasitic
- c. Viral

**Symptoms**
- Circle one:
  - a. Flu-like feelings
  - b. Non-itchy rash
  - c. Pain during intercourse
  - d. Painless sores

**How It’s Spread**
- Circle two:
  - a. Mother to baby during pregnancy
  - b. Sharing needles
  - c. Vaginal/anal/oral sex

**Treatment**
- Circle one:
  - a. Antibiotics
  - b. No known cure
  - c. Surgery

**Possible Consequences (if left untreated)**
- Circle three:
  - a. Blindness
  - b. Cancer
  - c. Death
  - d. Organ damage

---

### TRICHOMONIASIS

**Type of Infection**
- a. Bacterial
- b. Parasitic
- c. Viral

**Symptoms**
- Circle three:
  - a. Burning with urination
  - b. Flu-like feelings
  - c. Itching/irritation
  - d. May not have symptoms

**How It’s Spread**
- Circle two:
  - a. Mother to baby during pregnancy
  - b. Sharing needles
  - c. Vaginal/anal/oral sex

**Treatment**
- Circle one:
  - a. Antibiotics
  - b. No known cure
  - c. Special lotions or shampoos

**Possible Consequences (if left untreated)**
- Circle three:
  - a. Ectopic pregnancies in females
  - b. Increases risk for HIV infection
  - c. Infection may last for months or years
  - d. Liver damage and death
