

School Health Conference Sponsorship Prospectus

Make Meaningful
Connections with ASHA

About Our Conference

For nearly 100 years, the American School Health Association (ASHA) has promoted the health of our nation's youth by educating its members who work in PreK-12 schools or advise and oversee health education or health services programs in schools or state agencies. Our mission is to transform all schools into places where every student learns and thrives.

The Annual American School Health Conference will consist of two unique events – a virtual event and an in-person institute. These events will attract approximately 400 school health professionals from across the nation to network and discuss current school health issues and trends, research findings, and innovative teaching techniques.
